SOUND TECH REQUIREMENTS

Treneti's unique style of deep bass-forward music requires a professional audio system with high-quality subwoofers. Many of the bass frequencies and healing frequencies Treneti incorporates in her sound can not be fully received without a PA system that has a full frequency bandwidth range. If your venue does not already have subwoofers you can rent them independently or Treneti's team can arrange the rental for an additional fee.

PAYMENT POLICIES

For Local performances, payments can be made via check or electronic payment to Treneti upon her arrival at the venue. Payments must be completed at least 3 hours before the scheduled performance. If you book a performance style that requires theatrical preparation such as stage/set design a portion may be due in advance. *Full details are to be discussed and detailed in the official booking contracts and invoices.*

For Non-Local *(Any booking farther than 50miles away, that requires travel meal, and housing arrangements) 1/2 agreed upon booking fee should be sent to the artist upon signing of official booking agreements to cover the setup of travel and housing arrangements. The remaining 1/2 of the agreed-upon booking fee is to be delivered to Treneti upon her arrival at the Venue at least 3 hours before the scheduled performance time.*
